Sameed - Full Stack Web Devolper

Innovative Full-Stack Developer | Specializing in React, Node.js, PHP, and Express | Two Years of Experience | Building Scalable and Delivering High-Performance Web Applications Tailored to Business and E-commerce Needs.
Faisalabad, Punjab, Pakistan

Summary

As a seasoned Full-Stack Developer, I specialize in creating innovative and high-performance web solutions that drive business success. My expertise in HTML, CSS, JavaScript, React, Express, Tailwind CSS, Node.js, and PHP enables me to build responsive, scalable, and visually stunning applications. Whether you need a robust e-commerce platform, an engaging personal website, or a dynamic landing page, I bring a blend of technical excellence and creative design to every project.

I understand that your website is often the first point of contact with your customers. That's why I focus on crafting user-friendly interfaces and seamless experiences that captivate your audience and convert visitors into loyal clients. My deep knowledge of modern web technologies ensures that your site not only looks great but also performs optimally across all devices, enhancing user engagement and satisfaction.

My professional journey includes valuable experience as a Full-Stack Developer at Code Debugger Software House and an internship at Luminars Soft. These roles have equipped me with a strong foundation in real-world application development, where I contributed to projects requiring problem-solving, innovation, and precision. I bring these skills to every client project, ensuring that your digital solutions are not only effective but also cutting-edge.

I believe in collaborative partnerships where your vision is the driving force behind our work together. I am committed to delivering results that align with your business goals, whether it's increasing sales, improving brand presence, or providing a memorable online

experience. Let's connect and explore how we can take your digital presence to the next level.

Experience

Luminar Soft
Frontend Web Developer
March 2024 - Present (6 months)
Jarānwāla, Punjab, Pakistan

Helping to create beautiful and responsive websites. Convert their ideas intovisually stunning web applications. I work as a Frontend Devolper there.

Code Debuggers
Full Stack Developer
June 2022 - Present (2 years 3 months)
Faisalabad, Punjab, Pakistan

In your role as a full-stack web developer at Code Debugger Software House, you were responsible for designing, developing, and maintaining both frontend and backend components of web applications. You collaborated closely with cross-functional teams to deliver high-quality software solutions. Your work involved creating responsive user interfaces using modern web technologies, managing server-side logic, integrating databases, and ensuring seamless deployment processes. You also played a key role in debugging, optimizing performance, and implementing best practices in code quality and software architecture.

Education

Panjab College
ICS, Computer Science · (June 2024 - October 2026)
